PROJECTS

Trackify — AI-Powered Job Application Tracker 🔗

Built a fullstack job application tracking platform where users upload their CV and paste a job URL (TopCV) to get AI-powered match analysis. Integrated Google Gemini 2.5 Flash via Spring AI to return match score, missing skills, suggested keywords, and a summary. Features include application deadline reminders and result caching to reduce redundant AI calls.

Tech stack: Java · Spring Boot · Spring AI · Next.js · TypeScript · PostgreSQL · Docker
